CSR Cemintel™ has worked closely with the Nichiha Corporation to introduce a series of leading façade solutions designed for the Australian market. The Nichiha Corporation has over 50 years experience in developing industry leading lightweight facade systems that significantly reduce installation time compared to traditional construction methods. Leveraging state of the art technology ensures that all Nichiha products deliver the highest quality result for our customers and together we are committed to adding value to our customers and the community.

**CSR CEMINTEL™ Guarantee**

CSR Limited guarantees its CEMINTEL™ products to be free of defects in materials and manufacture. If a CSR product does not meet our standard we will, at our own option, replace or repair it, supply an equivalent product, or pay for doing one of these. CSR recommends that only those products, components and systems recommended by it be used. If this is not done, CSR will need to be satisfied that any defect in its products is attributable to our failure to meet our standard (and not another cause) before guarantee applies. This guarantee excludes all other guarantees and liability for damage or loss on connection with defects in CSR's products, other than those imposed by legislation.

All finishes in this brochure are indicative and should not be used as a final selection.

Additional information is listed in the Material Safety Data sheet for this product which is available from CSR Building Products, 39 Delhi Road, North Ryde NSW 2113. ### Innovative Fixing System

3m pre-finished panels slot into starter track

Unique clips slot into panel and attach it direct to the stud wall

Further panels slot into top of clips and process is repeated....

The Cemintel Designer Series™ is a modern, innovative and distinctive range of pre-finished cement-bonded fibrous wood particle panels ideal for any façade application, and unique in the Australian market.

The external façade of your home can represent who you are so it is important to think about the style of home you want to create as it will determine which external façade look will suit.

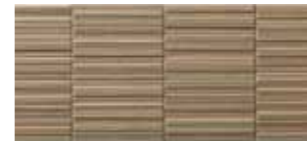

The Cemintel Designer Series™ range gives you the opportunity to tailor a look for your lifestyle... so you can be bold and make a statement or use a product which will complement and blend in with the remaining materials of your home.

The Cemintel Designer Series™ offers:

- Unique aesthetic appeal, which is lightweight and durable.
- An innovative fixing system, which rapidly reduces installation time.
- A multi layered painting system designed for long lasting performance.
- A high level of texture and depth of colour making it superior to existing brick or fibre cement facades.
- Available in a variety of textures and colours.

ZIRCON

ONYX

### i-CUBE

With an ultra-modern aesthetic, the i-Cube will look stunning on any residential feature façade. A choice of 3 individual panels provides and enables you to match i-Cube with a range of colour schemes.

*Consider your home's natural environment*

ALPINE

SANDSTONE

EBONY

### TEXTURED

With a depth of colour and intricate texture not seen in the Australian façade market before, Textured panels offer a truly unique residential façade solution. Available in natural tones, the pre-finished panels will complement any colour scheme and will create a point of difference to any home.

*Colour schemes should generally blend in with the natural surrounds.*

SLATE

**SLIMLINE**

The traditional Slimline design offers a distinctive look to any home as a full walling solution or when used as a feature wall.

MAPLE

**WOODGRAIN**

With a classic aesthetic, Woodgrain is the ideal full wall or 1st storey wrap solution. Available in a choice of two natural colours, Woodgrain blends with any traditional colour scheme and would be an elegant addition to any home.

OAK

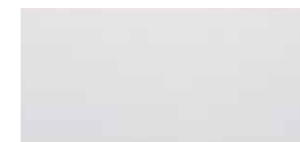

*When planning your external facade look, take into consideration the overall colour scheme you want to develop and then choose the colour in the range which best suits the look.*

SMOOTH

MOCHA

## SMOOTH

An affordable walling solution, Smooth panels provide designers with a minimalist aesthetic. A high level finish and visible horizontal joints mean the Smooth panels are the modern walling choice.

*If you are using external cladding as a feature, have a think about the feature of the home which you would like highlighted.*
